Profile Summary

Third-year Computer Science and Engineering student at KL University, specializing in Data Science, Big Data Analytics. Experienced in developing web applications, REST APIs, and software projects using Java, Python, React.js, and Spring Boot. Seeking internship opportunities in software engineering, data science, and AI/ML.

Education

KL University Guntur, India
B.Tech – Computer Science and Engineering Jul 2024 – May 2028
CGPA: 9.59/10

Sri Sarada Junior College Jun 2022 – Apr 2024
Intermediate (MPC) – 90.7%

Technical Skills

Programming Languages: C, Java, Python
Frontend: HTML, CSS, JavaScript, React.js
Backend: Spring Boot, REST APIs, Microservices, FastAPI
Databases: MySQL, PostgreSQL
Cloud and Tools: AWS, Docker, Git, GitHub, Vercel, Render
Core CS: Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks
Data Science: Machine Learning Fundamentals, Data Analysis

Hackathon Experience

DreamCraft – Skills Development Platform Live Demo Sep 2026

- Developed a skills-based platform that helps users explore and enhance their skills through an interactive web experience.
- Designed a user-friendly interface to support skill discovery, engagement, and an accessible learning experience.

Projects

ScamShield – Scam Detection Platform Live Demo GitHub Oct 2026

- Developed a full-stack scam detection platform using React.js, Spring Boot, FastAPI, and MySQL to analyze suspicious messages and identify potential scam indicators through rule-based risk scoring.
- Integrated REST APIs between the frontend, backend, and Python analysis service, and deployed the application using Vercel and Render with Docker-based containerization.

Student Performance Prediction System Live Demo GitHub Mar 2026

- Built a Python-based machine learning application with Streamlit to analyze student performance data and generate predictions from relevant academic inputs.
- Designed an interactive dashboard to present prediction results and performance insights through a user-friendly interface.

AgriSustain – Sustainable Agriculture Platform Live Demo GitHub Nov 2025

- Developed a web-based platform focused on sustainable agriculture, organizing agricultural information in an accessible and user-friendly interface.
- Implemented responsive frontend components using web technologies and deployed the application on Vercel to make the platform accessible online.

Certifications

AWS Certified Cloud Practitioner Jul 2026

Microsoft Learn Credential – View Credential

Cambridge Linguaskill English Test – CEFR B1 Mar 2026

Leadership and Activities

Vachas Club – Member Jun 2026 – Present

- Participate in activities promoting creativity and communication.
- Collaborate with members and strengthen teamwork skills.

Cybersecurity Club – Member Mar 2025 – Dec 2025

- Learn cybersecurity fundamentals and digital safety practices.
- Explore information security concepts with club members.
